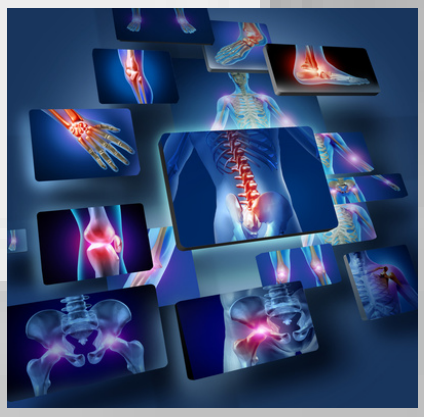
ABOUT OUR COMPANY



At **QC Kinetix (Beaumont)**, we are a **sports injury clinic in Beaumont** that deals in providing non-invasive and natural treatments to help our patients recover from their injuries. Our protocols often work best when used as part of a comprehensive recovery plan, and by combining traditional sports injury treatments with regenerative medicine, we can offer our patients the benefits of both. Not only will you recover faster with our treatments, but you'll also find that you're less prone to re-injury as regenerative therapy can help to strengthen tendons, ligaments, and even cartilage. We treat patients of all types, including weekend warriors, professional athletes, and active aging individuals who want to maintain their active lifestyles. Our team of experienced professionals is dedicated to finding the best treatment plan for each patient, and we are committed to helping you get back on your feet and return to your desired level of activity. So why wait? Contact us today!

SERVICES WE OFFER:
